Programs for Granges

While the Foundation does not offer Grants to our Subordinate Granges they do offer the use of their 501 c (3) status. There are many Foundations who are willing to accept Grant requests, but most need to come from a charitable organization and while our Granges are non-profit they are not considered charitable. The Foundation can help with this. If your Grange is interested please contact one of the Foundation Trustees and they can help get the process started.
